

PURVESH PAWAR

Full Stack Developer

📞 8108202064 | 9137425470 ✉️ purveshpawar13@gmail.com

Professional Summary

Highly motivated Full Stack Developer skilled in crafting responsive, user-friendly web experiences. Proficient in **HTML, CSS, JavaScript, Angular, Bootstrap, Tailwind CSS, Typescript** for front-end, and **Core Java, JSP, Spring Boot, Hibernate, MySQL** for back-end development. Experienced in **RESTful API** integration, **problem-solving**, and using tools like **Maven**. Passionate about delivering solutions that follow industry best practices and enhance user engagement.

Technical Skills

- **Frontend:**
 - **HTML, CSS, JavaScript, Angular, TypeScript, Bootstrap, Tailwind CSS, Wordpress.**
- **Backend:**
 - **Core Java, JSP, Spring Boot, Hibernate, My SQL.**
- **Tools:**
 - **Git, GitHub, Eclipse, Jira, Postman.**

Professional Experience

- **Vithal Vision Pvt Ltd.** *April 2025 – Jun 2025*
- **Java Backend Developer** *Remote*
 - Performed **CRUD operations** to manage **users, movie projects, and investment data**, optimizing database performance with **MySQL and Hibernate**.
 - Worked alongside **backend and team members** to build **investor workflows**, including **KYC verification, transaction history, and investment tracking**.
 - **Supported the frontend team** by integrating backend APIs with AJAX, delivering **real-time data updates** and enhancing **user experience**, which contributed to a **20% increase** in **user session** duration.
 - Collaborated closely with **Frontend developers and Team Lead** in daily stand-ups to resolve **API integration** challenges, ensuring **on-time delivery** of the **admin panel** feature within given **timeline**.
 - Collaborated with **cross-functional teams** to align **backend services** with **frontend requirements**, ensuring cohesive platform functionality.

Projects

- **Cinema Investment Web Platform(Vithal Vision Pvt Ltd):** *Apr 2025- Jun 2025*
- **Technologies:** Spring Boot, Hibernate, MySQL, JSP, HTML, CSS, JavaScript, jQuery, AJAX.
 - Developing the **backend and frontend** components, enhancing platform functionality for user management, investment tracking, and movie data.
 - Built a **robust backend system** to support investor functionalities, including **KYC management, transaction tracking, and investment portfolio** oversight.
 - Implemented a filmmaker module to facilitate **project submissions, funding requests, and profile management**, enhancing platform usability for creative stakeholders.
 - Designed and developed **RESTful APIs** using **Spring Boot, Hibernate, and MySQL** for a cinema investment web platform, enabling **secure and scalable** interactions for **investors and filmmakers**.
 - Integrated **jQuery** for enhanced frontend interactions, improving the user experience and ensuring a smooth, dynamic interface.**viewing, and management.**

- **SCM (Smart contact manager) Project:** *Feb 2025- Mar 2025*
 - **Technologies:** Spring Boot, Hibernate, MySQL, Thymeleaf, JavaScript.
 - Developed a **full-stack Smart Contact Manager** featuring **CRUD functionality**, utilizing technologies such as **HTML, CSS, JavaScript, Thymeleaf, Spring Boot, Hibernate, and MySQL**; enabled seamless contact creation, **viewing, and management**.
 - **Leveraged Tailwind CSS** to design a modern, responsive, and visually engaging user interface, significantly enhancing the overall user experience and usability.
 - Designed a secure user registration flow with **email verification**, achieving a **90% success** rate for **verified accounts** through the integration of **JWT (JSON Web Tokens)** for enhanced **security** and **effective** session management.
 - Integrated **Google OAuth2** for streamlined authentication via **Gmail and GitHub**, reducing user registration and login friction by **30%** while **enhancing security**.
 - Implemented **Spring Security** for **robust** authentication and authorization, safeguarding user credentials and **minimizing** security vulnerabilities.
- **Portfolio Website :** *Feb 2025- Mar 2025*
 - **Technologies:** WordPress
 - Transitioned a custom portfolio website from HTML, CSS, and JavaScript to **WordPress**, enhancing content management capabilities and user-friendly customization.
 - Transitioned a custom portfolio website from HTML, CSS, and JavaScript to **WordPress**, enhancing content management capabilities and user-friendly customization.
 - Implemented **dark mode functionality**, enhancing accessibility and catering to diverse user preferences.
 - Optimized page load speed by compressing images and minifying scripts, **resulting in a 25%** improvement in website performance.
- **Weather Dashboard:** *Jan 2025 – Feb 2025*
 - **Technologies:** HTML, CSS, JavaScript.
 - Developed a **dynamic Weather Dashboard** using **HTML, CSS, and JavaScript**, delivering real-time weather data for over **100 locations worldwide** and enhancing user engagement by **30%**.
 - Integrated the **OpenWeatherMap API** to fetch and display accurate weather information, including temperature, humidity, and forecasts, achieving a **95% accuracy rate** in data retrieval.
 - Utilized the **OpenStreetMap API** to visualize precise locations such as districts and states, improving geographical visualization and user experience.
 - Implemented a **dynamic background feature** that changes based on **weather conditions**, showcasing **unique background images** for various **weather types** and increasing user interaction time by **25%**.

Education

IIHT Vashi AIITS <i>Diploma in Full Stack Java</i>	Mar 2025 <i>Navi Mumbai, Maharashtra</i>
Shivajirao Jondhale Polytechnic, Asangaon <i>Diploma in Civil Engineering</i>	Jun 2017 <i>Thane, Maharashtra</i>
Hindmata School SSC	Jun 2014 <i>Navi Mumbai, Maharashtra</i>
